OBJECTIVES

Front-end Developer and Systems Analyst with experience in React, Angular, TypeScript, JavaScript, Tailwind, MongoDB, and Prisma, seeking to contribute to projects that promote innovative and efficient software development solutions. Committed to agile methodologies, such as SCRUM, and always up-to-date with best coding practices. Serves as a leader in the Code Warriors developer community, fostering collaboration and continuous learning among members. Strong communication and problem-solving skills, with a proven ability to manage time effectively and adapt to changing project requirements. Empathetic and focused, dedicated to delivering high-quality results while promoting a positive team environment.
